

Parent Education Sessions

Learning to Write

Learn how children progress from scribbling to legible handwriting.

"Evidence collected over the last two decades indicates a consistent relation between handwriting automaticity and written composition."

(Abreu Malpique, Pino-Pasternak & Valcan 6th June 2017 Springer Science + Business Media Dordrecht)

We Will Cover:

Foundation skills required for handwriting.

What to expect at different ages.

Handwriting instruction.

What to do if you have any concerns.

Questions are welcomed. You may also bring along a sample of your child's drawing / writing.

Please contact us to inquire about current workshop details including: date, venue, cost and registering.
